

## What is Structured Wiring?

Structured wiring is a standards based system of cabling that distributes communication services (including voice, data and video) from a central location over a network of built-in cables throughout a home.

## Benefits of Structured Wiring

- *Enhance your connected lifestyle*
- *Secure your connections*
- *Easily integrate new technologies*
- *Allow for future changes*

*Transforming technology  
to meet your lifestyle*

*With SOHO Access™  
take full advantage of  
today's technology in  
the comfort of your  
own home*

*Want to access the Internet in the bedroom, access the Internet in the bedroom.*

- Access the internet from any room in your home
- Share files, music, and movies
- Allow for integration of new technology

*Want to watch television while in the garage, watch television while in the garage.*

- Extend video to every corner of your home
- Experience functionality from a true video network
- Allow your entertainment to fit your lifestyle

## With a SOHO Access™ structured wiring system, the choice is always yours.

We understand how you feel.

You're buying a new house. You're considering things like the size of the garage, fireplaces, kitchens, upkeep and how safe is the neighborhood. You really don't have time to worry about where you're going to put the big screen TV or the computer.

We'll make sure that you have ready-to-use, high-speed Internet connections as well as television, home networking and entertainment options in every room in the house.

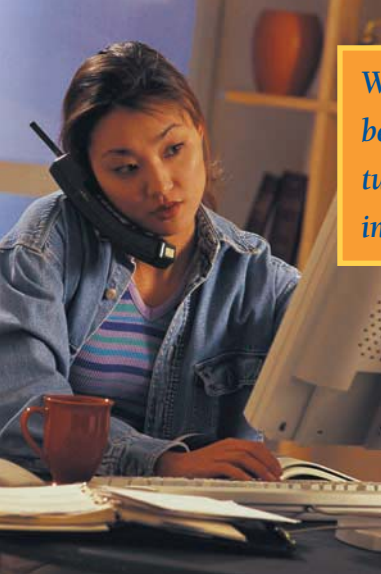

What's more, we give you unlimited options for the future.

Which is precisely why you should wire your new home with SOHO Access™ products.

*SOHO Access™ structured wiring easily provides shared access between multiple PCs, entertainment media centers, and other internet ready devices*

*Want to turn the extra bedroom into an office, turn the extra bedroom into an office.*

- Keep your business and personal phones separate
- Use computers that share printers and fax machines
- Use internet on a secure and reliable connection

*Want to listen to music while in the bathroom, listen to music while in the bathroom.*

- Let your music follow you wherever you go
- Allow music to enhance how you live
- Your entertainment just a finger touch away

Connect your computer to your stereo and play MP3 files in every room.

Create a home office with a dedicated phone line.

Record your programs on a DVR and watch them on any TV in the house.

Use the Xbox™ or PlayStation™ in the living room as the hub for a broadband entertainment center.

Add to your music collection from the comfort of the couch.

It is all possible with SOHO Access™ structured wiring.

*Enjoy unlimited entertainment possibilities with SOHO Access™*

*Communicate and retrieve information anywhere and anyway you want*

## Why Install Structured Wiring?

Structured wiring systems simplify and enhance your lifestyle and create long-term value for your home.

Today's entertainment and lifestyle products are developing at a tremendous pace. These systems often include computers, phones, gaming devices, audio players, appliances, set-top boxes, and many more. In addition, communications and entertainment services continue to evolve and provide more choices.

A structured cabling system provides an effective way to integrate and utilize changing products and services to enhance your lifestyle today and in the future.
