

Product Description

Who says you have to sacrifice style for flexibility? Suttle's decorative wall plates and outlets can create many different outlet configuration (telephone, data, and video) while maintaining consistent aesthetics throughout a home. It's just another way to ensure that all your multimedia wall plates and power outlets are uniform in appearance.

Our decorative wall plates are made with a highly durable thermoplastic allowing for a virtually unbreakable solution. They are available in both single and double gang configurations with 0, 1, 2, or 3 port inserts for customizable phone, data, or video distribution. Each item is sold separately and is available in electric ivory, light almond, or white.
