

Low Voltage Retrofit Mounting Brackets

Single & Double-gang Retrofit Mounting Brackets

Product Description

Non-metallic, Low Voltage Mounting Brackets are the time and money-saving solution for faster and easier mounting of Class 2 communications, computer, and cable TV wiring. Designed to mount wall plates flush, the Arlington Industries LV1 and LV2 mounting brackets offer features that deliver a better-looking, easy to install job.

Features

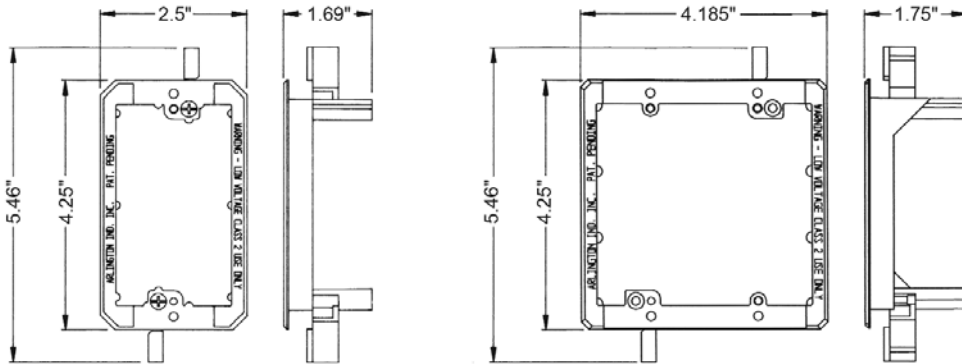

- Adjusts to fit 1/4" to 1" thick wall board, paneling, or drywall
- Horizontal or vertical mounting
- Bracket is its own template for cut out
- Thin front lip and recessed faceplate screw holes to ensure a flush install
- Retrofit installation wings automatically flip up as screws are tightened providing a secure mount
- Available in both single and double-gang configurations

Specifications

Materials ----- High impact, UL 94V-0 rated thermoplastic
