

SAM-SA6

6-zone standard audio distribution module, for speaker wire runs from amplifier to impedance matching volume controls (not included)

Features

- Distributes left and right audio signal to 2 speakers in up to 6 rooms
- Screw Terminal type connections
- For use with amplifier and impedance matching volume controls

Product Description

The SAM-SA6 standard audio module allows amplified audio signal to be distributed via speaker wire to impedance matching volume controls (*not included*) to up to 6-zones. It provides a single source of audio from a dedicated system amplifier to all 6 zones.

Specifications

Rating:	300V 20A
Insulation Withstand Voltage	1000V AC
Screw Torque:	4kgf - cm
Wire:	24~12 AWG
Dimensions	3" H x 6.5" W x 1" D
