

### SAM-VX10

4-line to 10-port expansion module, one RJ45 jumpers included

### Features

- Makes adding outlets simple and easy
- Allows for expansion to additional SAM-VX10s

### Product Description

The 10-port Voice Expansion Module bridges 4 lines from SAM-V8, SAM-VE, or SAM-DP9 to an additional 10 outputs (110 IDC blocks). The SAM-VX10 is expandable to additional SAM-VX10s if needed. This expansion module is bridged from the SAM-V8, SAM-VE, and the SAM-DP9 modules using an RJ45 patch cord (included).
