

SpeedStar™ OptoLock® POF Coupler

SpeedStar™ OptoLock® Plastic Optical Fiber Coupler

Product Description

The Suttle SpeedStar™ OptoLock® POF coupler provides instant coupling for bare Plastic Optical Fiber (POF) within a miniature housing. This POF coupler significantly quickens and simplifies the connection of devices in communications and infotainment networks. The design of the SpeedStar™ OptoLock® coupler enables the fiber to be cut and terminated to the exact required length on site, allowing even the most novice consumer to quickly and easily terminate the bare optical fiber.

Features

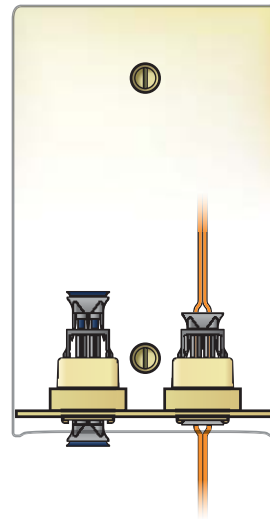

- Simple low-cost coupling solution for bare POF
- Optimized for high-speed Fast Ethernet of 125 Mbps
- For use in all SpeedStar™ plates and housings

Specifications

Materials ----- UL 94V-0 Thermoplastic
Connector Type ----- OptoLock® POF Coupler
POF Size ----- 2.2mm
Insertion Loss ----- < 2db
Safety ----- cULus
